

Desander

Effectively removes solids from liquids using centrifugal action. No moving parts and used for a wide range of applications.

Rate: 14 BPM

Max. Pressure:
250 PSIG @ 200 F

Tare Weight: 4,600 (Estimated)

Operating Weight:
5,700 (Estimated)

Dimensions: 4'4" x 7'0" x 9'0"

Deck Load: 188 PSF

Specification:
ASME Code Vessel

Overpressure Protection:
PSV (Sized for Fire Case)
